# VPS OIL CONDITION MONITORING (OCM) FOR CABLE LAYERS

Maximize Uptime. Reduce Cost. Eliminate Guesswork.

Cable laying operations demand precise equipment performance and zero tolerance for downtime. VPS OCM gives you real-time insight into your machinery condition, so you can lay with confidence.

24/7

TECHNICAL ASSISTANCE

From experienced lubrication experts.

## WHY CABLE LAYERS USE VPS

### PROTECT YOUR ASSETS

Detect issues early and prevent costly failures.

### REDUCE DOWNTIME

Stay on schedule with fewer unexpected stoppages.

### LOWER OPEX

Extend oil life and reduce maintenance costs.

### COMPLIANCE SUPPORT

Support OEM requirements and class standards.

### DATA-DRIVEN DECISIONS

Make smarter maintenance decisions with confidence.

## HOW VPS OCM WORKS

### SAMPLE

Simple sampling procedures to ensure representative samples obtained from equipment.

### SEND

Free sample kits & logistics via Samplogic.

### ANALYZE

Supported by MLA certified experts.

### REPORT

Results in 3-5 days with full report on customer portal.

### ACT

Take action with expert guidance and support.

## GLOBAL EXPERTISE | TRUSTED RESULTS

3

### STRATEGIC LABS

Houston, Rotterdam & Singapore.

### MLA-CERTIFIED TECHNICAL ADVISORS

Experienced experts supporting your fleet.

### 24-HOUR TECHNICAL SUPPORT

Dedicated Technical Account Manager in the UK.

## RUN A PILOT ON YOUR FLEET

We will prove value fast, typically within the first sampling cycle.

## TRANSPARENT PRICING

- Includes testing, logistics & reporting.
- No hidden fees.
- Real value from the first sample.

## WHAT WE TEST

Main Engines & Auxiliaries.

Power Generation Sets.

Thrusters & Azimuth Drives.

Cable Tensioners & Winches.

Hydraulic Systems.

Gearboxes & Drive Systems.

Other Critical Lubricated Equipment.

## FLEET INSIGHTS THAT DRIVE RESULTS

- Fleet-wide visibility of equipment condition by vessel or by system.
- Trend analysis by parameter and system.
- Identify issues early and optimize maintenance schedules.
- Data-driven cylinder oil optimization for 4-stroke engines.
- Secure, easy-to-use digital dashboards for your team.

PROTECT YOUR CABLE LAYERS | OPTIMIZE PERFORMANCE | STAY AHEAD
