# VPS OIL CONDITION MONITORING (OCM) FOR TUG FLEETS

Maximize Uptime. Reduce Cost. Eliminate Guesswork.

Tugs operate under high load, stop-start cycles that push equipment to the limit. VPS OCM gives you real-time insight into your machinery condition, so you act before failures happen, not after.

**TECHNICAL ASSISTANCE**

From experienced lubrication experts.

## WHY TUG OPERATORS USE VPS

### PROTECT YOUR ASSETS

Detect issues early and prevent costly breakdowns.

### REDUCE DOWNTIME

Stay on the water, increasing maintenance intervals.

### LOWER OPEX

Extend oil life and reduce maintenance costs.

### COMMERCIAL AGILITY

Independent testing creates greater leverage with lube suppliers.

### DATA-DRIVEN DECISIONS

Make smarter maintenance decisions with confidence.

## HOW VPS OCM WORKS

### SAMPLE

Simple sampling procedures to ensure representative samples obtained from equipment.

### SEND

Free sample kits & logistics via Samplogic.

### ANALYZE

Supported by MLA certified experts.

### REPORT

Results in 3-5 days with full report on customer portal.

### ACT

Take action with expert guidance and support.

## GLOBAL EXPERTISE | TRUSTED RESULTS

3

### STRATEGIC LABS

Houston, Rotterdam & Singapore.

### MLA-CERTIFIED TECHNICAL ADVISORS

Experienced experts supporting your fleet.

### 24-HOUR TECHNICAL SUPPORT

Dedicated Technical Account Manager in the UK.

## RUN A PILOT ON YOUR FLEET

We will prove value fast, typically within the first sampling cycle.

## TRANSPARENT PRICING

- Includes testing, logistics & reporting.
- No hidden fees.
- Real value from the first sample.

## WHAT WE TEST

Main Engines and Auxiliaries.

Gearboxes and Thrusters.

Hydraulic Systems and Winches.

Other Critical Lubricated Equipment.

## FLEET INSIGHTS THAT DRIVE RESULTS

- Fleet-wide visibility of equipment condition by vessel or by system.
- Trend analysis by parameter and system.
- Identify issues early and optimize maintenance schedules.
- Data-driven cylinder oil optimization for 4-stroke engines.
- Secure, easy-to-use digital dashboards for your team.

PROTECT YOUR TUGS | OPTIMIZE PERFORMANCE | STAY AHEAD
